**"Delivering
outstanding
communication
solutions is our
PASSION & PROMISE"**

About Us.

Established in 2010, we have always been one of the top design and build network solutions providers in Malaysia. With professional certification, license and insurance, we specialise in virtually every aspect of communications infrastructure and management service, from structured cabling systems to ELV (Extra Low Voltage).

Our clients range from small to medium enterprises to nationally based corporations and institutions from different industries. We pride ourselves in our commitment to excellence in delivering trustworthy and high quality solutions for all your communication needs.

RISB is a registered G5 company under the Construction Industry Development Board (CIDB) and also ISO 9001:2015 certified.

Certificate No. 12750 & DSM Certificate No. 1066

Mission

To empower our clients and partners with high-valued products in IT infrastructure, while maintaining our passion and principles as we continue to grow.

Vision

To be a respected design and build network solutions company that delivers.

Key Management.

The Management

KM. Tan

Managing Director

Implements strategic plans to ensure that the organisation runs effectively and efficiently. Works with top-tier executives to oversee core operations of RISB and establishes new business opportunities. Builds customer relations and develops organisational marketing plans.

Felix Tan

Director (Project Department)

Oversees projects and strategic planning aspects. Manages resources according to project requirements, budget and timeline to ensure that RISB delivers successfully.

Ravi Shankar

Director (Operations Department)

Manages internal and external contracts and proposals. Experienced in resolving risk and coordinating processes while ensuring that they comply with all legal and organisational policies.

Key Personnel

Janice Tan
Senior Executive
(Admin/
Purchasing)

Oversees organisational purchasing and sales to help track all business records. Manages day-to-day administration and organisational activities.

Marleny Majid
Executive
(Finance/HR)

Supervises and monitors organisational income and expenses. Arranges the company budget to cut cost and maximise profits while managing HR matters.

Alex Teh
Manager
(Project QS)

Oversees commercial wellbeing through analysis to facilitate tendering, calculating and costing works. Manages and ensures that all projects are completed within the contractual budget.

Loh Boon Seng
Manager
(Business Development)

Leads and manages external client accounts as well as rendering internal sales support. Researches and plans new marketing initiatives while developing new markets to improve sales.

Teo Yee Zent
Senior Executive
(Project Department)

Manages and ensures all projects undertaken are running in proper order to meet the customers & organisation's requirements.

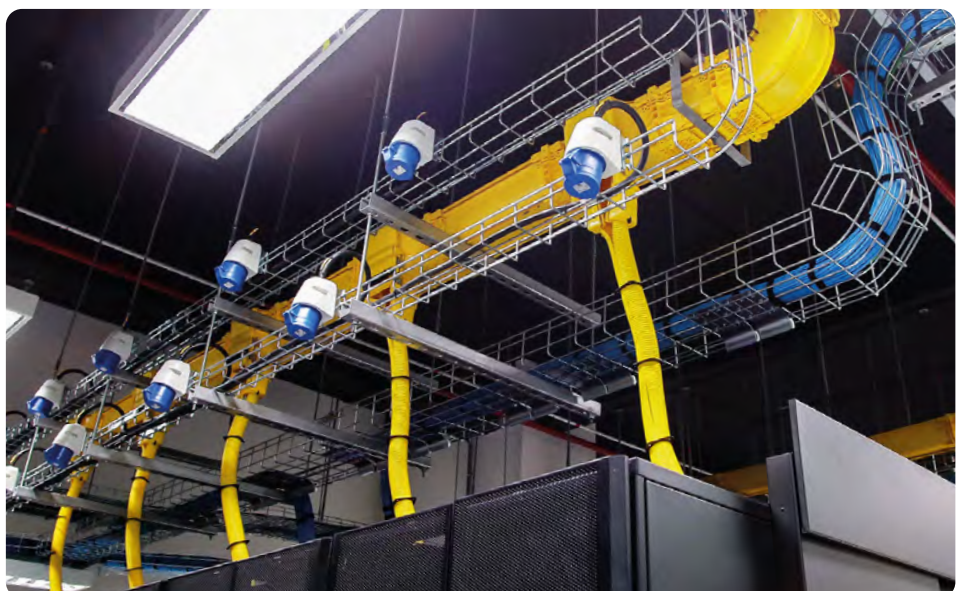

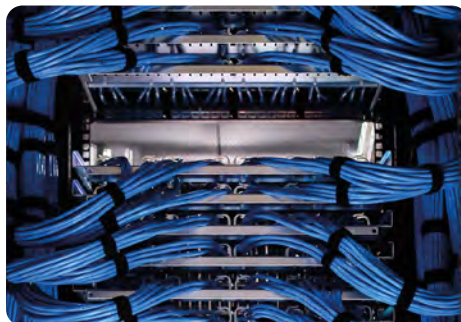

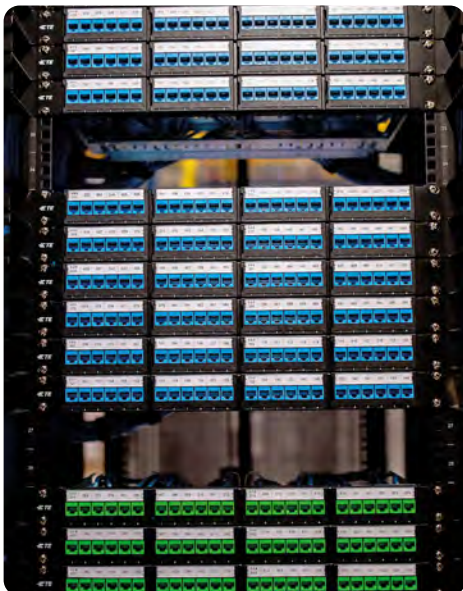

DJuan Lim
Senior Engineer
(Project Department)

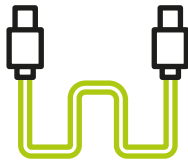

Responsible for the maintenance and technical assistance in ELV and Networking Systems with the Project Team.

Our Services.

We have years of experience as a design and build company providing a full range of solutions in communications infrastructure and management services.

Our services include everything from structured cabling systems for large national and regional firms to ELV (Extra Low Voltage). Our services are available all throughout Malaysia, especially in the Northern Region.

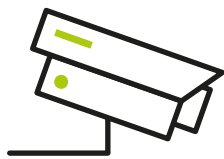

Structured Cabling System

- Data cabling for Cat5e, Cat6, Cat6A and Cat7 solutions
- Design, Installation, Testing and Commissioning
- Cable Management Works
- Maintenance Cabling Works (Move, Add and Changes to existing infrastructures)
- Cable Certification Reporting

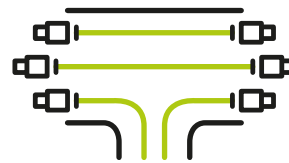

Fiber Optic Enterprise Networks

- Multimode and Singlemode System
- Air-Blown Fiber and Microduct Solutions
- Complete Fiber Optic Splicing, Interconnect and Cable Management
- OLTS and OTDR Fiber Certification Testing

ELV (Extra Low Voltage)

- Network CCTV Cameras and Video Encoders
- Security Access Control System
- Network LAN/WAN POE Switches/Routers
- Public Address System
- Digital Communication System
- Wireless Connectivity Solutions
- SMATV/IPTV Infrastructure

Enclosures, Cabinet and Cable Management

- Complete solution for cabinets and containment systems for data centers, server rooms and office spaces
- Cable pathways and wire mesh tray design and installation
- Adds and changes to connections for future networking growth and cabling demands

Energy Management System

- Building Automation and Control Systems
- Hotel Room Controllers (RCU/GRMS)
- Power Management Systems
- EV Charging Stations

Safety Policy.

Safety Assurance

Safety is of the utmost importance to RISB. We constantly prioritise our commitment to ensure the health and safety of our employees, partners, clients and community. We will continually uphold our safety assurance to grow and achieve ZERO safety related incidents at our workplace.

Legal Compliance

At RISB, we adhere to all statutory (law) and non-statutory (codes of practice & guidelines) when carrying out our projects.

Management Involvement

Our management is involved in every single project to ensure that our projects are inspected and delivered without major defects. This involvement also guarantees unparalleled services that promise high customer satisfaction.

Planning

We undergo thorough planning processes to enhance our performance and outcome. All RISB employees are committed to their roles and responsibilities to establish a safe working environment as well as delivering timely, high quality services.

Quality Policy.

Quality Control & Management System

We have a thorough process to ensure that our projects are up to quality standards.

1. Planning

- Assess project's current quality level to observe the required level
- Develop an effective and workable plan with specific targets to improve the quality where necessary

2. Implement

- Execute the planned solution(s) or change(s)

3. Checking

- Review and evaluate implemented change(s) and its effect on project quality
- Ensure that there are no negative impact or consequences

4. Acting

- Act based on implementation and evaluation of planned change(s)
- Repeat cycle until project quality objectives are achieved

**"Quality is not
an act but it
is a habit"**

Project Workflow & Implementation.

We always see to it that our team follows through with our workflow and implementation process to generate the best outcomes.

1. Consultation

- Meet clients to understand scope of project
- Determine the necessary solutions required for the project

2. Project Planning & Design

- Evaluate the project and plan the concept and technical designs
- Develop proposals with coordinated designs along with relevant service systems
- Draw up outline specifications
- Determine preliminary cost
- Devise project strategies

3. Cabling Infrastructure

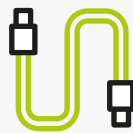

- Work with trusty and professional partners on cabling infrastructure

4. Execution & Installation

- Ensure that designs are exact to fit the infrastructure to lay the groundwork for future works
- Ensure that implemented works meet brand standards and quality
- Test systems to verify workability and quality

5. Maintenance

- Provide after sales services to clients whenever necessary

Consultation

Meet clients to determine necessary solutions

Planning & Design

Develop proposals and strategies

Cabling Infrastructure

Work with partners on cabling infrastructure

Installation

Ensure works meet brand standards and quality

Maintenance

Provide after sales service

Our Strength.

We are passionate in everything we do and we are determined to provide services of the highest quality. We are committed to deliver successful projects that meet the highest standards of safety and quality assurance.

1. Quality Assurance

- Our QA & QC team regularly perform work progress checks

2. Professional QS Team

- Review project plans and advise managers and clients on strategies and improvements
- Liaise with site managers, contractors, clients
- Keeping track on work progress and materials

3. Our Trusted Partners

- We have a long list of business partners that we trust and have been working with for years
- Chatsworth Products Inc. (CPI), Siemon, Commscope, Legrand, Axis Communications, Hikvision, CORNING, EPSON, Cel-Fi, EntryPass & Amperes Electronics
- Our partners provide only the highest quality solutions

4. Excellent Track Record of Clients

- Clients from various industries in the Northern Region
- Satisfied customers

5. Outstanding After Sales Support

- Comprehensive after sales support provided to clients after completion of projects

A bundle of copper pipes is shown diagonally across the frame, with the background featuring a bokeh effect of out-of-focus light circles in shades of blue and purple. The text is positioned in the upper right area of the image.
